Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION***Election/Restrictions***

Applicant's election of claims 1-15 in the reply filed on 03/26/04 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-8 are rejected under 35 U.S.C. 102(e) as being anticipated by Burns et al. [US 6,449,291].

Regarding claims 1-6, Burns et al. disclose a time synchronization in a communications/distribution system comprising a master clock coupled to a timing path/network [system of cable modems], the master clock having means for generating a timing signal/timestamp on the timing path in response to a time event [clock error time between the first and second timestamp] associated with the master clock; a slave clock coupled to the timing signal path, the slave clock

having means for adjusting a local time in the slave clock in response to the timing signal/timestamp received via the timing signal path [abstract].

Regarding claim 7, Burns et al. disclose means for determining a correction to the local time in the slave clock in response to the timestamps [abstract, lines 17-21; figure 12].

Regarding claim 8, Burns et al. disclose that the timing signal comprises clock pulse [abstract].

Allowable Subject Matter

Claims 9-15 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Edison [US 6,741,952]; Edison [US 6,665,316]; Edison et al. [US 6,654,356]; Read et al. [US 6,236,623]; Berthaud [US 6,157,957]; Staffan [US 5,425,004]; Strong et al. [US 6,335,931].
